

Othello Acts 1 and 2 Vocabulary Words for Composition

You may use these words in any form EXCEPT those indicated with a (v.). Those must be used as VERBS. When you use the words in your composition, **you must show me**, in **the way** that you use them, that you clearly understand what the words mean. This may sound a little awkward, but that's ok. You must also use the **same definition** for each word as was used in the original text (more or less – this is Shakespeare).

Please indicate, in some way, the ten words in your composition. Bold, or highlight (not in yellow). Do not use italics.

The words here are listed in the order in which they appear in the original text, in the FORM in which they appear. But remember, you can change that.
